

Dear Parents,

I would like to inform you that Raja Selvakumar, one of our 8th graders, won 1st Place in the Georgia State Science & Engineering Fair this month. This fair was held at UGA in Athens on April 1-4. Raja's project was titled "Bio Fuels" and competed in the category of Energy & Transportation. Congratulations to Raja, his parents, and all of our Science Fair department teachers.

In addition, Raja is flying to Houston, Texas, this Wednesday to attend the International I-SWEEP competition with his Science Fair project. We wish him all the best. Way to go Raja!
